TACTURA
Where walls come alive.

Inspired by nature and crafted through advanced design, Tactura wall panels bring depth, texture and realism to interior spaces. Each surface captures the essence of natural materials — from soft stone to warm earth — creating walls that don’t just look real, but feel real.
All the beauty of tiles, without the weight, mess or complex installation.

Each Tactura mood captures a distinct atmosphere, shaped by colour, texture and light. Explore the five moods and discover the one that speaks to you.

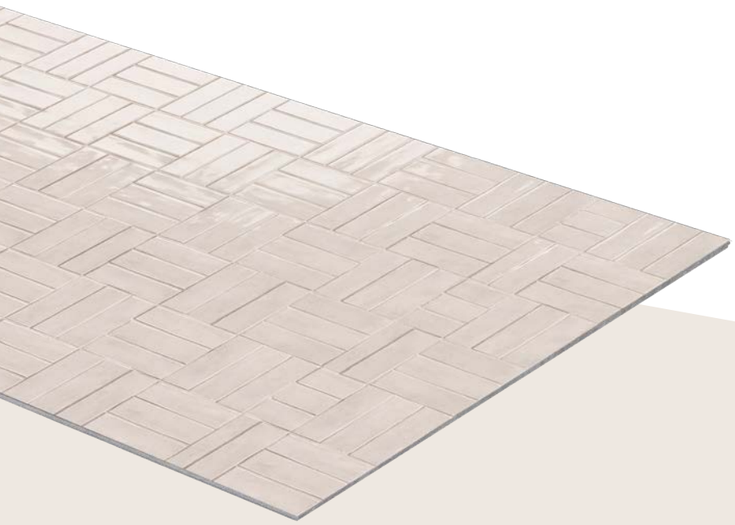

Tactura, where walls come alive.

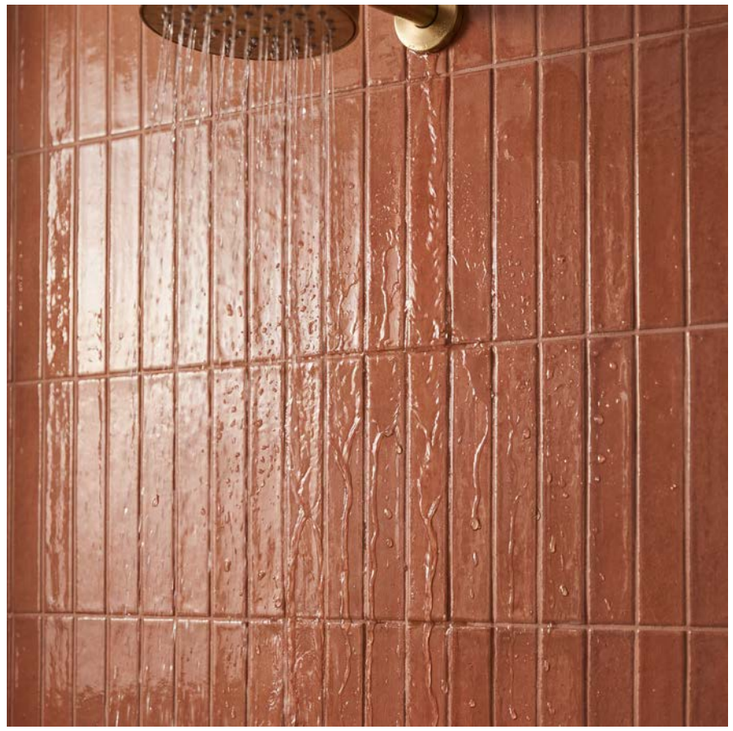

A tactile richness that invites touch.

True Touch Technology

Tactura brings walls to life through texture, depth and subtle dimension. Thanks to True Touch Technology, each surface gains a refined 3D relief that enhances the design and creates a realistic tactile experience.

Add warmth, character and a rich sensory experience to your interior.

moods

easy install

With Tactura, installation is quick, simple and hassle-free. The lightweight XL panels can be glued directly onto existing walls, with no demolition required.

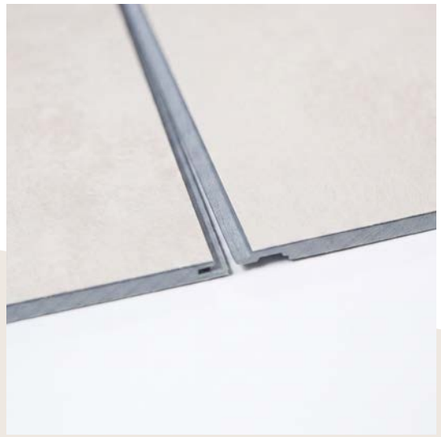

so easy

easy cut to size

Tactura panels are easy to cut to size using a hand saw, circular saw, jigsaw or utility knife — making them ideal for DIY projects.

easy connection

Thanks to the smart tongue-and-groove system, Tactura panels connect quickly and securely. The panels align neatly for a clean, precise finish, making installation easier, faster and more intuitive.

easy care

With their easy-care surface, Tactura panels are simple to clean, worry-free to maintain and made to stay beautiful in everyday spaces.

100% waterproof

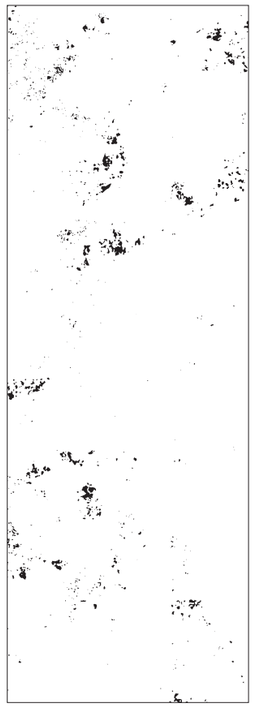

With Tactura, your bathroom gets a durable, waterproof finish with a premium tactile feel. Quick to install and easy to maintain, these wall panels are ideal for wet rooms, including shower walls.
